Are You Ready?

An In-depth Guide to Citizen Preparedness

Are You Ready? An In-Depth Guide to Citizen Preparedness (IS-22) is FEMA's most comprehensive source on individual, family, and community preparedness. The guide has been revised, updated, and enhanced in August 2004 to provide the public with the most current and up-to-date disaster preparedness information available.

Are You Ready? provides a step-by-step approach to disaster preparedness by walking the reader through how to get informed about local emergency plans, how to identify hazards that affect their local area, and how to develop and maintain an emergency communications plan and disaster supplies kit. Other topics covered include evacuation, emergency public shelters, animals in disaster, and information specific to people with disabilities.

Are You Ready? also provides in-depth information on specific hazards including what to do before, during, and after each hazard type. The following hazards are covered: **Floods**, Tornadoes, Hurricanes, Thunderstorms and Lightning, **Winter Storms and Extreme Cold**, Extreme Heat, **Earthquakes**, **Volcanoes**, Landslide and Debris Flows (Mudslide), **Tsunamis**, Fires, Wildfires, **Hazardous Materials Incidents**, Household Chemical Emergencies, Nuclear Power Plant, and **Terrorism** (including Explosion, Biological, Chemical, Nuclear, and Radiological hazards).

The training and supplied materials are provided at no charge and the public is highly encouraged to attend

Please RSVP for the class you desire to attend to Stephen.hagberg@snoco.org. Snohomish County Emergency Management can be reached at 425-388-5060, and is located at 3509 109th St SW, Everett, WA 98204
