

**9. District Mapping**

<b>Measure / Indicator Description:</b>	<b>Responsibility:</b>	<b>2006 %</b>	<b>2007 %</b>	<b>2008 %</b>	<b>2009 %</b>
Percent compliance with acquiring and learning basic operations of ArchView GIS Program Software for District mapping.	Lt. Adolf	100	100	100	
Percent compliance with acquiring the District Fire Map Template from Snohomish County Planning Dept.'s GIS Section depicting property boundaries, public roadways, and waterways, and other points of interest.	Lt. Adolf	100	100	100	
Percent compliance with dividing District map into one square mile response grids in accordance with SNOPAC E-911 Geographical Files.	Lt. Adolf	100	100	100	
Percent compliance with pasting essential response symbols such as hydrants, road barriers, fire station locations, and hazards onto individual grid maps.	Lt. Adolf	100	100	100	
Percent compliance with conducting, on an annual basis, map update reconnaissance for each response grid as assigned by shift Battalion Chiefs.	Company Officers	100	100	100	
Percent compliance with producing and maintaining site plans for all multifamily complexes located in the District. Such plans shall be included in the back section of each District Response Map Book.	Lt. Adolf	100	100	100	
Percent compliance with producing, distributing and maintaining an accurate District Response Map Book for each response apparatus with updates for each grid provided at least annually.	Lt. Adolf	100	100	100	
Percent compliance with producing and updating as needed large wall maps of the District Response Area for use at each fire station.	Kenny Vickers	100	100	100	
<b>Overall Percent Compliance by Year:</b>		<b>100%</b>	<b>100%</b>	<b>100%</b>	

**What does this measure tell us?**

Having a detailed mapping system incorporating the use of GIS technology is an important component of maintaining our effective service delivery system. This measure helps assure that our members can quickly locate property addresses, follow the shortest road network to an emergency scene, identify the closest fire hydrants, and view the site plan for any multi-family complexes located in the Fire District – all in an effort to provide rapid intervention in the event of an emergency.

**Goal being measured:**

*Develop and Maintain an Effective Service Delivery System.*
